The Stock Investors'
Handy
Pocket Book of Rates.

By a

Bank Accountant

Toronto
Hart & Company
31 and 33 King St. W.

1885

ENTERED ACCORDING TO THE ACT OF PARLIAMENT OF
CANADA, IN THE YEAR ONE THOUSAND EIGHT HUNDRED
AND EIGHTY-FIVE, BY HART & COMPANY, IN THE OFFICE
OF THE MINISTER OF AGRICULTURE.

IN presenting this little book to Investors in Bank and other Stocks, the compiler has endeavoured to give in as compact and cheap a form as possible, a set of tables showing what rate of income is derivable from investments in stock paying any rate of dividend from 3 to 16 per cent., when bought at any price from 50 to 300. For instance: Stock bought at 133 and paying 8 per cent. per annum on par value, will net 6.01 per cent. on amount invested.

Being intended merely as a Handy-Book for Investors desiring to see at a glance the annual rate to be expected from investments, the calculations are based upon the annual dividend paid, without taking into consideration the fact of dividends being paid half-yearly. A table has been added showing the price to be paid for stock paying one rate of dividend to net any other rate.
